• Information for researcher	42
• Signing in participants manually	43
• Singing off participants	47
• Granting credits	50
• Closing a study	53

General Information

- **Function of LABS-system**

- Everyone who is interested to participate in scientific psychological studies has the possibility to register in LABS-system. Therefore, LABS-system enables researchers to draw a sample of interested participants for their experiments.
- In conclusion LABS-system represents a communication interface between participants and researchers. It allows researchers to invite interested individuals to participate in their studies.

General Information

- **Function of LABS-system**

- **Attention:** You cannot reserve a laboratory room using LABS-system! All information / particulars concerning laboratory rooms, which you choose in LABS-system, are only supposed to inform the participants.
- Please make sure you have already reserved a laboratory room before you schedule your LABSsystem study. To reserve a room you will have to contact the room reservation system of your specific department.

General Information

- Access to LABS-system: <https://labs-univie.sona-systems.com/>
- Request a researcher account:
 - You can request a researcher account by sending an e-mail. Please indicate the correct subject in your e-mail depending on your specific department:
 - For studies concerning social psychological research: *Subject:* [SozPsych] LABS-Account
 - For studies concerning basic or biological psychological research: *Subject:* [AllgBioPsych] LABS-Account
 - Send your request to labs.psychologie@univie.ac.at

General Information

- **If you plan to invite students from the STEOP-course:**
 - STEOP students are participating in the STEOP-course “Psychologische Forschung erleben und reflektieren“. Participants of this course get an understanding of recent psychological research. Furthermore, STEOP students are supposed to reflect on one of the studies, in which they participated. Therefore, it is necessary that the researcher of a study, which allows STEOP students to participate, provides a **short summary** and **adequately debrief** all participants after participation!
 - All studies on the LABS system must receive study approval before timeslots can be administered. **Additional requirements are necessary to receive approval for studies aiming to invite students from the STEOP-course.** The procedure of the approval request will be described in detail later on (see page: Approval request).
- **Online only studies will not be approved for the LABS-course „ STEOP: Psychologische Forschung erleben“:**

General Information

- **Regarding invitations of participants:**
 - The bulk mail function (see Chapter ,inviting participants‘) is not meant to invite all potential participants! It should point a random sample of potential participants to the study. It is meaningless to invite 500 students to a study that needs 50 participants!
- **Too many messages accomplish NOTHING!**
 - If you don't get more participants through sending an invitation, you won't change that through sending more invitations! On the contrary, if all researchers invite multiple times a week, students will receive countless mails, which they will eventually regard as spam!
- **Please use the template for invitations, which is shown in the chapter ,inviting participants‘.**

Select study type

To add a new study, you must first select the type of study you would like to add as well as the compensation type. You may not change a study nor the compensation to a different type once you have added it, so please be sure to select the correct type of study now.

Standard Study		A study that is scheduled to take place at a specific place (i.e. not online), and where there is only one part to the study that participants will participate in.	<input type="radio"/> Paid <input checked="" type="radio"/> Credit
Two-Part Standard Study		A study that is scheduled to take place at a specific place (i.e. not online), in two parts. The two parts may be scheduled to take place a specified number of days apart, and a participant must sign up for both parts of the study at one time.	<input type="radio"/> Paid <input type="radio"/> Credit
Online Survey Study		An online survey study that is...	<input type="radio"/> Paid <input type="radio"/> Credit
Online External Study		An online study that is set up...	<input type="radio"/> Paid <input type="radio"/> Credit

CONTINUE

Usually pick „Standard Study – Credits“

ATTENTION:

For paid studies or web studies it is NOT possible to invite STEOP-participants!

In general it is not possible to grant credits for online studies. This also includes all other courses.

* It is no problem to conduct online studies in the testing rooms. Participants can come to the testing room and participate in an online study.

Selecting a Study Type

- **Usually pick: Standard-Study → Credits:**

- Depending on the duration of the study, participants will be granted a number of „credits“ after participation. Those „credits“ can be assigned to different courses/seminars. Some courses/seminars require the participation in studies and therefore a number of „credits“ for a successful completion of the course/seminar.

- **pick: Standard-Study → Paid:**

- Only pick this option if you are going to pay every participant for the participation.
- 8 euros per hour are recommended as monetary incentives. If possible conform to that in order to maintain a comparable hourly basis and to uphold individuals' interest for lower amounts.

- **Two-Part-Standard Study:**

- Choose this option if your study consists of two parts. Please note: Participants can only sign in for both parts at the same time. For this reason it is important to make sure that enough open timeslots exist for both parts of the study. Missing timeslots for the second part of the study will cause that participants cannot sign in for the first part of the study.

Adding a New Study

Naming a Study

- **The name of YOUR study should match a specific form:**
 - The name of your study should consist of:
 - <department abbreviation>_<semester>_<freely chosen study name>
- **Abbreviation to indicate the department**
 - The abbreviation depends on the department in which you want to conduct your study, please see next slide.
- **Semester**
 - Year followed by semester (e.g.: 14WS, 15SS, ...)
- **Freely chosen study name**
 - Choose a name that does not already reveal the real purpose of the study to the participants.
- **EXAMPLES:**
 - SozPsych_15SS_Studie1
 - AllgBioPsych_16WS_StudieXY

Abbreviations

- General psychology: **AllgPsych_...**
- Biological psychology: **AllgBioPsych_...**
- Clinical Adult Psychology: **klinAdultPsych_...**
- Clinical and Social Neuroscience: **klinSozNeuroPsych_...**
- Clinical Child and Adolescent Psychology: **ClinChildAdoPsych_...**
- Cognitive psychology: **CogPsych_...**
- Developmental and Educational Psychology in School Age: **DevEduSchPsych_...**
- Developmental Psychology: **DevPsych_...**
- Differential Psychology, Personality Psychology and Psychological Diagnostics: **DifPersDiagPsych_...**
- Educational Psychology and Societal Change: **EduSocPsych_...**
- Economic psychology : **EcoPsych...**
- Health Psychology: **HealthPsych_...**
- Methods of Psychology: **MethPsych_...**
- Motivational Psychology: **MotPsych_...**
- Psychology of Ageing: **AgePsych_...**
- Psychology of Cognitive and Neuroaesthetics: **CogNeuroaesthPsych_...**
- Psychological Research Methods - Research Synthesis: **MethSynthPsych_...**
- Psychological Research on Education and Transfer: **EduTransPsych_...**
- Psychology with a focus on Changes in Work, Society and Economy: **ChangePsych_...**
- Psychotraumatology: **TraumPsych_...**
- Social psychology and Research on Consumer Behavior: **SozPsych_...**
- Urban and Environmental Psychology: **EnvPsych_...**
- Work and Organizational Psychology: **WOPsych_...**

**Optional
Usually: None**

Type in the duration of your experiment.

1 credit is granted for experiments which endure up to 15 minutes. For every additional 15 minutes one more credit is granted.

For paid study type in the amount of money each participant will receive.

→ Read more on the next page

Study Information – Credits

- **Credits:**
 - Each participant will be granted “credits” for the participation in an experiment. The amount of granted credits depends on the duration of the experiment.
 - The least amount of credits is 1. This equals a duration time of 15 minutes.
 - If the experiment takes more than 15 minutes, you can grant one more credit for every 15 minutes-interval. For every additional 15 minutes you can grant an additional credit. However, if the duration of your experiment is between a 15 minutes interval, please **ROUND UP**.
 - **However, one is not allowed to provide more credits than are justified by the length of the study.**
- **The duration has to be determined beforehand**
 - That means there is a fixed number of credits for the participation in your experiment. This number is independent of how much time every single participant actually needed. This is why you should estimate the duration of your experiment realistically so that participants do not have to stay longer than the time advertised.
- **Before you conduct your study, you should test how long it takes**

Adding a New Study

The screenshot shows a web interface for adding a new study. It is divided into three main sections: Available, Disqualifiers, and Course Restrictions.

Available: A list of studies is shown. The first study is "(Inactive) SozPsych_15WS_Visuelle Aufmerksamkeit bei Produktauswahl (zweite Erhebung) (Inactive)". The second study is "SozPsych_16SS_Produktauswahl in Entscheidungssituationen (Inactive)".

Disqualifiers: A section titled "Disqualifiers" with the instruction "Participants must **not** have participated in ANY of these studies before they sign up:". It contains two tabs: "My Studies" and "All Studies". The "All Studies" tab is selected and circled in red. Below the tabs is a search bar and a list of studies. The first study in the list is "SozPsych_14WS_05 (Inactive)". The second study is "SozPsych_15WS_Visuelle Aufmerksamkeit bei Produktauswahl (zweite Erhebung) (Inactive)". The third study is "SozPsych_16SS_Produktauswahl in Entscheidungssituationen (Inactive)". The fourth study is "SozPsych_16SS_Produktbewertung_3 (Inactive)". The fifth study is "STEOP Onlinefragebogen Forschungserfahrung sammeln".

Course Restrictions: A section titled "Course Restrictions" with the instruction "Participants must be in one of these courses:". It contains a list of courses: "AB: Fehlende Stunden SS 16", "AB: Freiwillige Teilnahme - Biolog. und Allgemeine", "AB: PS bio. Grundl. Erleben&Verhalten (Riecansky)", "AB: PS bio. Grundl. Erleben&Verhalten(Bukowski)", "AB: Theorie&Empirie wiss. Arb. 1 (Müllner-Huber)", and "AB: VU Forschungsansätze Kogn. &".

Selected: A section titled "Selected" with the instruction "Participants must **not** have participated in ANY of these studies before they sign up:". It contains a list of studies. The first study is "SozPsych_15WS_Produktbewertung_2 (Inactive)". The second study is "SozPsych_15WS_Visuelle Aufmerksamkeit bei Produktauswahl (erste Erhebung) (Inactive)".

Annotations:

- A red box on the left contains the text: "Disqualifying studies: Identify studies which you do not want your participants to have already participated in." and "Exclude similar studies under all circumstances!".
- A red circle highlights the "All Studies" tab, with a red box containing the text: "Studies appear after a click on „All Studies“".
- A red circle highlights the second study in the "Selected" list, with a red box containing the text: "If the participants already participated in at least one of these studies, they **CANNOT** participate in your current study."

Adding a New Study

Disqualifiers

Participants must **not** have participated in ANY of these studies before they sign up:

My Studies All Studies

Only individuals from the chosen courses can participate in your study.

The researcher can decide which courses she/he wants To choose but at least one course MUST be chosen!

DO NOT CHOOSE following courses:

- **Bezahlte Studien** (except The participants will be paid)
- **Restpunktabzug**
- **XX_ARCHIVE –Forschung erleben abgeschlossen**
- **All other courses that begin with "X"**

Available Selected

Course Restrictions

Participants must be in one of these courses:

Neurowiss.
AB: VU Kognitionspsychologie & Neurowissenschaften
AB: VU Spezialthemen Kogn. & Neurowiss.
Bezahlte Studien
Restpunktabzug
S: ^freiwillige Teilnahme - Sozialpsychologie^
XX_ARCHIVE - Forschung erleben abgeschlossen

STEOP: Psychologische Forschung erleben

Available Selected

Invitation Code

(leave blank if participants do not need a special password to sign up for this study)

AB: Basic and biological psychology
S: Social psychology

Usually: leave blank

Adding a New Study

Participant Sign-Up Deadline hours before study is to occur

Participant Cancellation Deadline hours before study is to occur

Should the Researcher receive an email notification when a participant signs up or cancels?
 No
 Yes -- for sign-ups and cancellations
 Yes -- for cancellations only

Researchers at Timeslot-Level
Can researchers for this study be assigned to specific timeslots? Only applies if the study has more than one researcher.
 Yes
 No

Shared Comments
(Up to 1,000 characters, optional)

Hier eine überblickshafte Beschreibung des Experiments und verwendeter Methoden, Primings und Materialien. Kurz und knapp beschreiben, was in diesem Experiment passiert.

You always have to set restrictions even if your study does not have any (otherwise participants cannot be invited to the study).

click here

Study Restrictions

Current Prescreen Restrictions: **None**

Participation restrictions may be placed on a study based on a participant's prescreen responses. Participants will be unaware that the study has such restrictions placed on it. They will see only the studies for which they qualify, and none of the studies for which they do not qualify.

If you would like to determine how many participants meet a set of criteria, you may want to run a prescreen qualification analysis.

Prescreen Qualification Analysis

Prescreen questions that may be used as part of a study participation restriction must be multiple-choice questions (where only one choice may be selected), so only eligible questions are listed below. In addition, the prescreen may have been configured such that a sum or average score was computed for an entire section (for each participant). Those will also be listed if there are any.

If a participant signs up for this study, there will be an option to view that participant's entire set of responses to the prescreen. Listed below are all questions that are eligible for participation restrictions. Check the items that you would like to base the study's restrictions upon, and on the subsequent page there will be the option to define these restrictions down to specific responses for each question.

NOTE: The prescreen is currently unavailable to participants, so participants cannot complete the prescreen. This may be because the prescreen configuration is in the process of being modified, or the prescreen has been made inactive for other reasons. Placing restrictions based on a prescreen that is in the process of being modified may cause problems, so it is wise to contact the administrator first.

Section 1

Angaben zur Person:

- (Geburtsjahr)**
In welchem Jahr sind Sie geboren?
- (Geschlecht)**
Welches Geschlecht haben Sie?
- (Sprachkenntnis)**
Wie gut sprechen Sie Deutsch?
- (Ausbildung)**
Höchste abgeschlossene Ausbildung?
- (Student/in)**
Sind Sie Student/in?
- (Händigkeit)**
Würden Sie sich als rechts- oder linkshändig bezeichnen?

Here you can select the relevant information and restrictions (e.g. „Geschlecht“ / gender).

If your study has no restrictions please just select „Geschlecht“ (gender).

Section 2

Studien-Präferenzen:

Die folgenden Fragen beziehen sich auf Ihre Präferenz, an bestimmten methodenspezifischen Studien teilzunehmen. Ihre Angaben sollen lediglich Ihr allgemeines Interesse abfragen. Eine anschließende Teilnahme an Experimenten, zu denen Sie auf Grund Ihrer Auswahl eingeladen werden, ist selbstverständlich nicht verpflichtend.

Bitte überlegen Sie sich im Vorfeld genau, an welchen Studien Sie teilnehmen möchten, da eine spätere Korrektur Ihrer Angaben nicht möglich ist. Für weitere Informationen zu den unterschiedlichen Verfahren klicken Sie bitte auf die entsprechenden Verweise.

- (Verhalten)**
Möchten Sie an Verhaltensstudien teilnehmen (meist Fragebogen- bzw. Computeraufgaben)?

Study Restrictions

Study Prescreen Restrictions

Listed below are the restrictions you have chosen. Check the options that your desired participant must have chosen. To qualify to participate in a study, participants must have chosen one of your selected choices for each question.

If you have chosen to restrict based on the sum or average computed score for a section, you will see all possibilities within the allowable range of responses, computed down to 1 decimal point where applicable.

Changes will take effect immediately after they are saved. Participants who qualified for the study under the previous set of restrictions will *not* have their sign-up removed.

Angaben zur

Select the desired answers.

(Geschlecht) Welches Geschlecht haben Sie?

Choices:

- männlich
- weiblich
- keine Angabe

If your study does not have any restrictions just select „Geschlecht“ (gender) and accept every possible answer.

Angaben zur Person:

(Händigkeit) Würden Sie sich als rechts- oder linkshändig bezeichnen?

Choices:

- linkshändig
- rechtshändig

Angaben zu Seh- bzw. Hörbeeinträchtigungen:

Achtung! Für einige physiologische/neurowissenschaftliche Studien ist es notwendig, dass Sie die folgenden Fragen **vollständig beantworten**. Wenn Sie die Antwortmöglichkeit "keine Angabe" auswählen, werden Sie u. U. **nicht** zu diesen Studien eingeladen.

(Farbsehschwäche) Leiden Sie an einer Farbsehschwäche (z.B. Rot-Grün-Schwäche)?

Choices:

- ja
- nein
- keine Angabe

Timeslots

- To participate in a study the participants sign up for an appointment. These appointments are called „timeslots“ in LABS.
 - How you can create timeslots will be shown on the following pages.
- **ATTENTION:**
 - Do not create more timeslots than participants are needed. If timeslots remain unused, you can create new timeslots.
 - If you create more timeslots than necessary, more participants than needed can sign in. As a consequence these participants are no longer available for other studies.

Timeslots : SozPsych_14WS_Musterstudie

Timeslots for this study are listed below, with any sign-ups listed below the timeslot.

View timeslots on : GO

There are no recent timeslots for this study.

Here you can add timeslots. In the beginning it is advisable to add multiple timeslots.

Timeslots

Add Timeslots : SozPsych_14WS_Musterstudie

There are 2 options for adding multiple timeslots at once. You may add a specified number of timeslots, or you may duplicate the timeslot configuration from a specific week. If you duplicate the timeslot configuration from a specific week, the number of participants, locations, and times will be copied over.

NOTE: You are adding timeslots to a study that is **unapproved**, so participants will not be able to sign up for the study. With either option, you will have an option to review the information before the timeslot addition is performed. Please choose one of the 2 options below:

Number of Timeslots

20

Amount of the slots you want to create.

Date

Monday, 22 September 2014

First day of the experiment.

Start Time

9:00

Free time between slots

5

Minutes

Move timeslots to business hours?

Yes
 No

Timeslots that fall outside normal business hours will be shifted to the next business day.

If „Yes“ is selected, timeslots are only available in „business hours“.
If „No“ is selected, timeslots will also be available during the night.

Business Hours Start

9:00

Business Hours End

17:00

Number of Participants (Per timeslot)

4

Location

Projektraum der Sozialpsychologie (NIG, 7.Stock)

[View Schedule](#)

Select a location from the list, or type in your own, but do not do both.

Inviting Participants

Current Prescreen Restrictions

- Welches Geschlecht haben Sie?

1 participants currently meet the prescreen restrictions specified above. You may also invite qualified participants to participate in the study.

This only includes participants who are members of the courses that the study is limited to, which is:

- UE Supervised Orientation Tutorium (SOT)

[Invite Qualified Participants](#)

Current Prescreen Restrictions: Active

Participation restrictions may be placed on a study based on a participant's prescreen responses. Participants will be unaware that the study has such restrictions placed on it. They will see only the studies for which they qualify, and none of the studies for which they do not qualify.

If you would like to determine how many participants meet a set of criteria, you may want to run a prescreen qualification analysis.

Prescreen Qualification Analysis

Prescreen questions that may be used as part of a study participation restriction must be multiple-choice questions (where only one choice may be selected), so only eligible questions are listed below. In addition, the prescreen may have been configured such that a sum or average score was computed for an entire section (for each participant). Those will also be listed if there are any.

If a participant signs up for this study, there will be an option to view that participant's entire set of responses to the prescreen. Listed below are all questions that are eligible for participation restrictions. Check the items that you would like to based the study's restrictions upon, and on the subsequent page there will be the option to define these restrictions down to specific responses for each question. This study already has some restrictions based on it. Make sure to leave the existing restrictions checked unless you would like to remove those restrictions. De-selecting all choices and submitting this page will remove all restrictions.

NOTE: The prescreen is currently unavailable to participants, so participants cannot complete the prescreen. This may be because the prescreen configuration is in the process of being modified, or the prescreen has been made inactive for other reasons. Placing restrictions based on a prescreen that is in the process of being modified may cause problems, so it is wise to contact the administrator first.

Section 1

Angaben zur Person:

- (Geburtsjahr)**
In welchem Jahr sind Sie geboren?
- (Geschlecht)**
Welches Geschlecht haben Sie?
- (Sprachkenntnis)**
Wie gut sprechen Sie Deutsch?
- (Ausbildung)**
Höchste abgeschlossene Ausbildung?
- (Student/in)**
Sind Sie Student/in?
- (Händigkeit)**
Würden Sie sich als rechts- oder linkshändig bezeichnen?

Here you can see how many participants are suited to participate in your study.

Click here to send an invitation to suitable participants.

Inviting Participants

The administrator has configured the system so **you may only send an email if it will go to no more than 100 participants.**

Percentage to Mail 100% - All 1 participants
(participant estimates are approximations)

Here you can choose to how many persons you want to send the e-mail.
Attention: It is NOT POSSIBLE to send e-mails to more than 300 individuals at once! **Therefore choose an appropriate percentage!**

Yes, perform cancellation No, do not cancel

Note: A red box highlights the "Yes, perform cancellation" button, and a red arrow points from a text box to the message input area.

Here you should inform the participant about the reason of the sign-out!

Granting Credits

- After participation the researcher has to grant the participants the promised credits. This should be done right after the experiment or **until the end of that day at latest.**
- Individuals that excused themselves (e.g. via e-mail) will not receive credits but they will not be sanctioned any further („excused no-show“).
- Individuals that neither showed up or excused themselves will be noted in the system („unexcused no-show“).
- Individual with 3 unexcused no-shows will be locked by the system and cannot participate in another study. If such individuals farther need credits, they have to make themselves a new account. Already aquired credits cannot be transferred.

Closing a Study

- After the study has been conducted successfully it needs to be archived.
- How you can deactivate and close a study, will be shown on the following pages.
- For organizational reasons, the LABS-team will periodically unapprove and deactivate all active studies (usually at the end of the summer semester). If you have to carry out surveys after the end of the summer semester, your study will be approved upon request. In case of the STEOP-course there is no additional request for approval needed.
